EDUCATION

•National Institute of Technology, Warangal

2022 - present

Bachelor of Technology in Chemical Engineering

CGPA: 7.12

•FIITJEE Jr College, Kukatpally, Hyderabad

2019- 2021

Telangana State Board of Intermediate Education, Telanagana

CGPA: 9.45

EXPERIENCE

•Innovatecloud Solutions

May, 2025 - June, 2025

Python Developer Intern

Remote, Bangalore-India

- Built a job portal using Python (Flask) and SQLite, improving recruitment workflows by automating employer-job seeker interactions.
- Documented system workflows, created user manuals, and maintained issue logs for seamless handover
- Managed the complete product lifecycle – ideation to deployment – gaining exposure to **user experience optimization** and **product-market fit analysis**.

•Indian Oil Corporation Limited

May, 2024 - June, 2024

Intern, Technical Services

Mathura, Uttar Pradesh

- Gained industrial experience in refinery operations and process engineering at a leading national corporation.

PERSONAL PROJECTS

•Automated Content & Monetization Pipeline

June, 2025

Python project using REST APIs, GenAI, GCP

- Developed an end-to-end ETL (Extract, Transform, Load) pipeline using Python and GCP to automate data ingestion from REST APIs.
- Leveraged Generative AI to summarize performance trends, leading to a content strategy that **grew viewership to 1000+ in 30 days**.
- Demonstrated **end-to-end project ownership**, from initial concept and development to successful launch and performance tracking.

•Spam News Detection

September, 2024

Project at Intrainz in domain of Artificial Intelligence, Certified by IIT Bombay

- Engineered a text classification model to detect fake news with 90% accuracy on a benchmark dataset.
- Implemented a robust **NLP pipeline** using NLTK and spaCy for text preprocessing, including tokenization, stemming, and lemmatization.
- Applied NLP techniques such as stemming and lemmatization for preprocessing and analyzing news articles, demonstrated proficiency in handling large datasets and **optimized** the text preprocessing pipeline.

•E-Yantra: Cosmo Logistic

October, 2023

eYRC 2023-24 Competition, Conducted by CSE Department of IIT Bombay

- **Led a team** of four in the national-level competition themed "Cosmo Logistic", designing and deploying an autonomous logistics simulation using OpenCV with ROS2 in the Gazebo environment.
- Developed and fine-tuned image detection pipelines using OpenCV, enhancing detection accuracy under varying lighting conditions and **improving** object recognition consistency.
- **Optimized** robot navigation algorithms using Nav2 and AMCL, **achieving a 20% reduction in task completion time** and significantly improving the path-planning efficiency in dynamic environments.
- Gained hands-on expertise in advanced robotic frameworks including ROS2, Gazebo, NAV2, MoveIt, RViz2, AMCL, and EKF, simulating real-world robotics applications in logistics automation.

TECHNICAL SKILLS AND INTERESTS

Programming Languages: C++, Python, SQL, HTML, CSS, JavaScript

ML & Data Science Libraries : TensorFlow, OpenCV, NumPy, NLTK, spaCy, ReactJS

Developer Tools & Platforms: Git, Docker, GCP, Microsoft Azure, MySQL

Areas of Interest: Machine Learning, Natural Language Processing, Data-Centric AI, Computer Vision, Automation, Cloud Computing, Robotics

POSITIONS OF RESPONSIBILITY

- Executive**, Robotics Club, NITW *August, 2023 - Present*
- Executive member**, Student Council, NIT Warangal *June, 2023 - Present*
- Team Lead**, BuildWithIndia Hackathon *January, 2025 - March, 2025*
- Team Head**, E-Yantra 2023-24, IIT Bombay *October, 2023 - February, 2024*

CONFERENCES & COMPETITIONS

- Harvard Project for Asian and International Relations (HPAIR) Asia Conference 2025** *August, 2025*
The University of Tokyo, Japan
 - Secured a delegate position at the HPAIR 2025 Asia Conference to analyze the role of emerging technologies and AI in shaping international development and policy.
 - Recognized for leadership potential and a keen interest in applying technology to solve global-scale challenges, earning a place at the conference held at the University of Tokyo.
 - <https://drive.google.com/file/HPAIR/UTokyo>
- Research and Innovation Symposium in Computing (RISC) 2025** *March, 2025*
Indian Institute of Technology (IIT) Bombay
 - Selected to attend a prestigious national symposium focused on advanced computing research.
 - Interacted with leading researchers including Varsha Apte (HOD, CSE IIT Bombay), Vrunda Dave (Intel), and Nagarajan Natarajan (Microsoft Research).
 - Participated in panel discussions and student research presentations on emerging computing topics.
 - <https://drive.google.com/file/RISC/IITB>
- BuildWithIndia Hackathon** *March, 2025*
India's Biggest Hackthon Community
 - Developed a tech solution that identifies objects in real-time and communicates their presence via audio cues to aid blind users.
 - Implemented using OpenCV for object detection, Python, and a text-to-speech engine for audio output.
 - Led a 3-member team from concept to prototype, focusing on usability and accessibility.
 - Achieved top 20% rank among teams in a nationwide hackathon for innovation and impact.
 - <https://drive.google.com/file/HackWithIndia>

ACHIEVEMENTS

- Certificate of Completion**, Harvard Asia Conference (HPAIR) ACNOF-2025 *August, 2025*
- Certificate of Completion**, AIR 1 in Google GenAI Exchange Program *June, 2025*
- Certificate of Participation**, in Research and Innovation Symposium, IIT Bombay *April, 2025*
- Certificate of Participation**, among top 20% teams in HackWithIndia Hackathon *March, 2025*
- Certificate of Achievement**, Level 1 Conqueror in Ninja Slayground 2.0, Coding Ninjas *December, 2024*
- 1st prize** ECE's IOT Hackathon, NIT Warangal *November, 2023*
- Certificate and Letter of recommendation** achieved from Intrainz, IIT Bombay *September, 2023*
